

HONEYWELL COMBUSTION SAFETY

Field Services

The Honeywell Combustion Service team of 60+ engineers, factory trained technicians, and support staff are available any time you need us.

Burner Tuning

A poorly tuned burner not only causes poor flame quality and emissions, but it can also be extremely costly. The Service Department will thoroughly check and properly tune your site(s) systems to maximum efficiency.

Combustion Equipment Troubleshooting

Our Service Technicians have great knowledge and experience troubleshooting all types of combustion systems that will reduce your downtime drastically.

Start-Up and Commissioning

Our team is trained in performing initial start-up of new combustion equipment, regardless of the manufacturer. The combined technical resources of Service Technicians that will stand behind every service call to ensure your complete satisfaction.

Regulatory Safety Checks

Our Field Service Technicians conduct a 8-point annual combustion safety check per NFPA to assure your equipment is operating safely.

Additional Core Offerings Include:

- Equipment Upgrades and Repairs
- Gas Booster Maintenance
- Customized On-Site Training
- Preventative Maintenance Programs
- Parts & Service
- Technical Support

World Leader in Combustion Safety Services

With 30 years of industry experience, Honeywell Combustion Safety, formerly known as CEC Combustion Safety, is the world leader in managing and mitigating combustion equipment and fuel gas piping risk exposure. The company provides expert testing, inspection, training and engineering services for all types of fuel-fired systems across numerous industries throughout the world.

National Code Committee Member

- NFPA 85 - Boilers greater than 12.5 MM BTU/HR
- NFPA 86 - Furnaces & Ovens
- NFPA 87 - Fluid Heaters
- NFPA 56 - Standard for fire & explosion prevention during cleaning & purging of flammable gas piping systems

Facts and Figures

- Global service, engineering & upgrade capabilities
- Domain expertise with all types of fuel-fired systems across numerous industries
- 30,000+ fuel-fired systems inspected and safety tested
- SafeView - A unique online reporting system featuring a dashboard that trends and tracks issues, and empowers proactive decisions across one to 100+ facilities and thousands of fuel-fired systems
- Corporate-wide creation, implementation and management of safety programs
- Thousands trained annually with client-specific hazards, live-fire demos and online training
- Proven safety services to increase safety, reduce costs and increase reliability, efficiencies, and competitiveness while ensuring facility capacity
